INTEROFFICE CORRESPONDENCE

DATE: January 11, 1991

TO: G. E. Loudenberg, Purchasing, Bldg. 131, x7240

FROM: J. M. Kersh, ER&WM, Bldg. 111 *[Signature]*

SUBJECT: REQUEST FOR EXPEDITED LETTER CONTRACT WITH RIEDEL ENVIRONMENTAL SERVICES TO CONSTRUCT THE OPERABLE UNIT #2 GRANULAR ACTIVATED CARBON TREATMENT SYSTEM AUTHORIZATION NO. 986447

Ref: New Action to initiate engineering contract to meet regulatory deadlines.

PURPOSE

The purpose of this letter is to request a letter contract expediting the start of work on the fabrication of the Operable Unit #2 Treatment Systems by Riedel Environmental Services. Operation and maintenance of the Operable Unit #2 Treatment Systems will also be conducted by Riedel Environmental Services under this contract.

These services are required, to ensure that the Interagency Agreement deadlines are met.

Pursuant to the Interoffice Correspondence dated February 28, 1990 from R. F. Parnell to directors, the following information is provided.

- a) Insufficient time exists to negotiate a definitive contract because of the duration of administrative requirements associated with processing the contract documents. Regulatory requirements dictate the deadlines be met by March 1991.
- b) The impacts for not meeting the deadlines would involve noncompliance with the Interagency Agreement.
- c) The estimated contract value of the design services is \$551,426.99.

RESPONSE REQUIREMENTS

Please approve by January 14, 1991 to allow Riedel Environmental Services to start design and equipment procurement activities on January 15, 1991. Should you have any questions on this issue, please contact S. R. Hughes at extension 6668 or D. L. Shear at extension 5976.
